FINE
JEWELLERY
STONES

PRECIOSA

The title 'FINE' is written in large, white, sans-serif capital letters, oriented vertically. The background is a textured gold color with horizontal brushstrokes. Four jewelry stones are integrated into the design: a round orange diamond at the top left, a purple diamond at the top right, a pear-shaped pink diamond in the middle, and a large purple diamond at the bottom left.

FINE

JEWELRY STONES

We all know the famous quip from *The Devil Wears Prada* in which Meryl Streep so disdainfully delivers the line: “Florals... for spring? Groundbreaking.” But now imagine 3D, maximalist embellishment and non-traditional color palettes. Think futuristic flora and fauna interpreted through a combination of crystals, beading, casting and acrylics. And over-the-top doesn’t preclude high-end elegance. With the introduction of a new coloring technique and the continuous development of new cuts, fine jewelry stones are becoming more and more versatile and able to meet the trends. One-of-a-kind pieces call for exceptional materials, and this season is all about originality.
